

*Task*

Task No	Task	Allocation
1	Biometric and its implication on banking operations	
2	Overview of Biometric	
3	Characteristics of Biometric	
4	System Architecture of Biometric	
5	Major drawbacks of Biometric Technology	
6	Biometric in Banking Operations	
7	Biometric Technology for Banking functions	
8	Benefits of using Biometric in Banking	
9	Biometric for major banking functions (functional aspects)	
	<b>Fingerprint, Facial, Iris, Palm and Voice</b>	
10	Application of Biometric technology in Finance	
11	Application of Biometric technology in healthcare	
12	Application of Biometric technology in Manufacturing	
13	Application of Biometric technology in IoT	
14	Application of Biometric technology in Social Services	
15	Application of Biometric technology in Shipping	
16	Application of Biometric technology in Agriculture & Food	
17	Application of Biometric technology in Education	
18	Application of Biometric technology in E-commerce	
	<b>Real world applications of biometric technology in different sectors</b>	
19	Finance (Companies/organization; Real applications of blockchain)	
20	Healthcare (Companies/organization; Real applications of blockchain)	
21	Manufacturing (Companies/organization; Real applications of blockchain)	
22	IoT (Companies/organization; Real applications of blockchain)	
23	Social Services (Companies/organization; Real applications of blockchain)	
24	Shipping (Companies/organization; Real applications of blockchain)	
25	Agriculture & Food (Companies/organization; Real applications of blockchain)	
26	Education (Companies/organization; Real applications of blockchain)	
27	E-commerce (Companies/organization; Real applications of blockchain)	
28	Managerial implications with the use of Biometric technology	
29	Banking transformation with the use of Biometric technology	
30	Related theories on Biometric technology	
31	Societal impacts of biometric technologies on Finance	
32	Societal impacts of biometric technologies on Healthcare	
33	Societal impacts of biometric technologies on Manufacturing	
34	Societal impacts of biometric technologies on IoT	
35	Societal impacts of biometric technologies on Social Services	
36	Societal impacts of biometric technologies on Shipping	
37	Societal impacts of biometric technologies on Agriculture & Food	
38	Societal impacts of biometric technologies on Education	
39	Societal impacts of biometric technologies on E-commerce	
40	Biometric adoption challenges in banking systems	
41	Organizational challenges of biometric technologies in banking	
42	Technical challenges of biometric technologies in banking	
43	Operational challenges of biometric technologies in banking
